STORY:

Jaki is a clever little fox who grew up in a colorful town called Toon Town. One day, her older brother was brutally killed when someone dropped a piano on him. The killer was never identified, but young Jaki vowed to one day bring this evil killer to justice. As soon as she was old enough, she left her home town and moved to a peaceful forest home in the outskirts of Eureka. Eureka is a scientific community and home to Eureka University where Jaki competed a degree in criminal investigation.

One quiet morning, like any number of mornings, a messenger comes to her peaceful home & changes her life. The killer has returned. This is the moment she has been dreaming of. She now has the chance to revenge her brother's death & bring an evil killer to justice. Jaki's destiny takes her on a diverse wacky action-packed adventure as she travels through the vast world of Harmony Haven tracking a killer.

Play as Jaki, a powerful ninja & clever CSI. The mayor of Toon Town needs you. You are the only one who can find this terrible killer. Your mission is full of danger and intrigue as you explore the strange lands of Harmony Haven on your way back home to Toon Town. Investigate the murder, find the killer, and bring closure to your past.

Your journey is a perilous one. The killer has set many enemies against you. Many enemies are tricky and have special powers. To defeat them, you must first understand them. Revisit your friends in Toon Town. All of them have motive. Who can you trust? Who is telling the truth and who is lying? Use your powers as a ninja to destroy the killer's minions. Use your skills as a scientist to restore peace to your home town & bring your brother's killer to justice.
